

Migration Lead and Infrastructure Architect with 20+ years of enterprise experience delivering large-scale cloud adoptions, datacenter modernizations, and secure global hybrid architectures across strict financial boundaries. Proven track record managing multi-million dollar asset movements, industrial OT network hardening, and zero-downtime consolidations across Energy, Banking, and Pharmaceutical fields. Skilled in context-aware prompt designs across multiple LLMs to enable automated infrastructure flows.

CORPORATE EXPERIENCE

Datacenter SME / Infrastructure Architect COGNIZANT OIL & GAS CONSULTING SERVICES OSLO, NORWAY - Steer Azure hybrid cloud adoption pipelines and multi-tenant alignments inside DevOps dashboards. - Govern migration tracking blocks, author infrastructure runbooks, and manage enterprise RAID logs. - Audit regional scoping footprints, evaluate hardware cost metrics, and validate technical SoW parameters.	2019 — Present
Technical Line Lead / Assoc. Operations Manager COGNIZANT TECHNOLOGY SOLUTIONS PUNE, INDIA - Successfully established and scaled Bardays' primary Offshore Development Center footprint in India. - Served as global Web Infrastructure SME managing routing, access controls, F5 BIG-IP, and proxy clusters. - Directed engineering squads delivering core transition operations and critical L1/L2 incident remediation tracks.	2013 — 2019
Technical Consultant & Project Lead EINFOTEK, COMPUCOM & ASHTECH INFOTECH INTERNATIONAL - Managed multi-phase tactical server migration blocks processing 100+ active production profiles for Walmart. - Tracked asset equipment procurements, lifecycle budget lines, software licenses, and perimeter firewall setups.	2005 — 2012

KEY PROJECT HIGHLIGHTS

- Data Center Optimization (Oslo Site):** Relocated ~10 tons of hardware dependencies (14 HPE Enclosures, 50 Servers, 12 Racks) with zero disruption blocks, delivering **\$300K in annual cost savings**.
- US-2 Datacenter Decommissioning:** Directed four-stage blueprint migration processing 10PB core data volumes, scoring a documented **33% direct saving**.

CORE COMPETENCIES

Critical DC Operations	Project Management	Capacity Planning
Root Cause Analysis	Vendor Management	Server Architecture
Risk Mitigation	Prompt Engineering	

TECHNICAL CREDENTIALS

- AZURE SECURITY ENGINEER
- AZURE ADMINISTRATOR
- MCSE / MCP+I / MCP
- PRINCE2 AGILE® / ITIL
- CYBER SECURITY - GOV OF INDIA
- BICSI DATA CENTER INFRA
- CISM / CISSP TRAINING

KEY AWARDS

- GEM Award** - Aker Solutions
- Best Performer** - Barclays Capital
- Best Performer** - Telenet Belgium
- Best Innovation** - SaiTech Project
